

P&H Plant Hire Ltd

Company Overview & Portfolio

P&H Plant Hire Ltd was established in the early eighties by Nigel Purdham and John Hunter undertaking civil engineering works, primarily major drainage projects. Over the last 25 years P&H have built up a wide client base within the Public & Private sectors.

Our scope of works includes pipelines, sewers, deep drainage, culverts, cofferdams, box culverts, ducting, interceptors, pumping mains/stations, river crossings, water treatments and utility works.

We pride ourselves in providing a high-quality service to our clients and our extensive experience means that we can deliver the highest expected standards.

Below is a summary of some of our completed projects.
